

**TechniStone®**

**everlasting beauty**

**TechniStone<sup>®</sup>**

**TechniStone®**

*"Give every day the opportunity to appear  
as if it is the most beautiful day of your life."*

**Mark Twain**

# ART

... can be defined as the development and making of special innovative materials look full of beauty aimed at offering costumers ultimate quality with the original stamps of professionals.

**TechniStone<sup>®</sup>**

**TechniStone®**

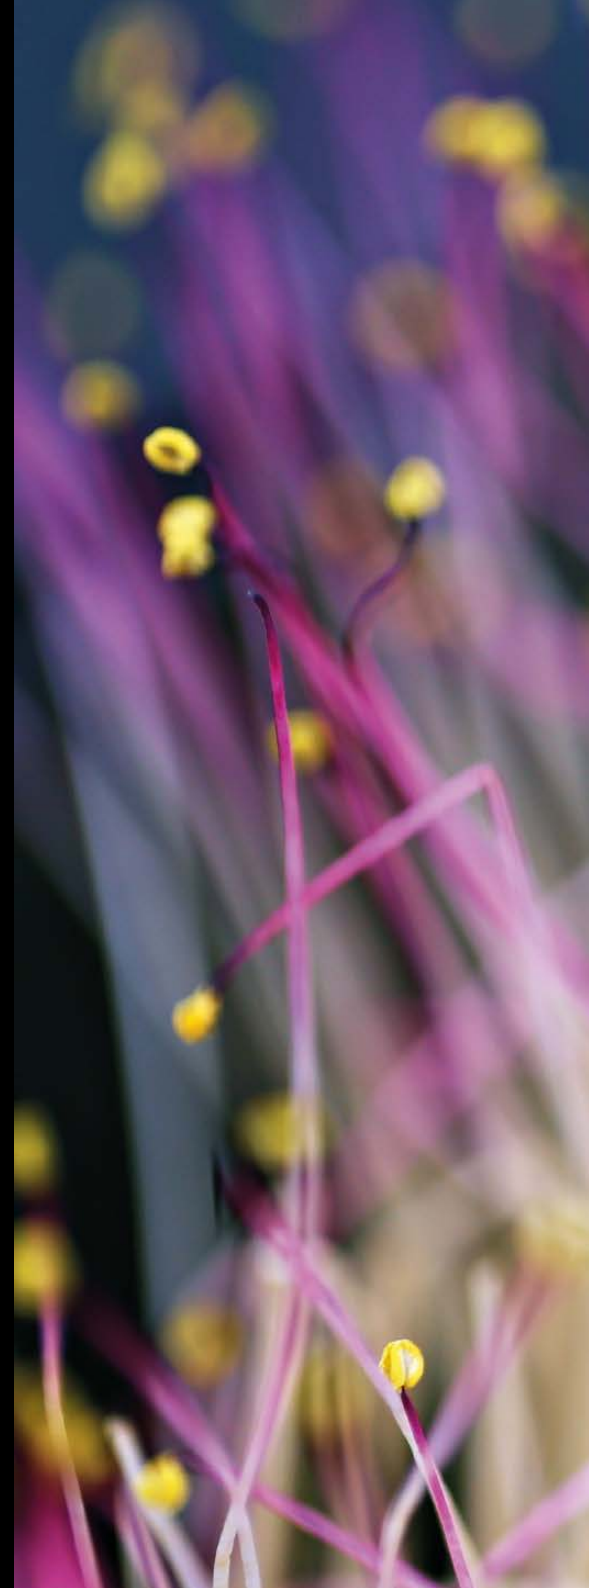

# BEAUTY

... has different guises. The continuous durability of engineered stone in itself reflects a unique theme from nature complimented by elaborate technological details.

# NATURE

... wonders of colors and forms. It conveys an abstract and monotonous picture. It is a source of respect, revitalization and protection.

**TechniStone®**

**TechniStone®**

# INNOVATION

... offers the opportunity of moving forward and progress. It transforms dreams into reality, gives current thoughts new dimensions and scope. To be innovative means being in harmony with time.

# DESIGN

... engineered stone changes our original perception of the use of building materials into works of modern art. Large format slabs are lux design elements of the modern interior.

## REFERENCES

... international and local evidence through consistent advertisement of quality products. The confidence of business partners in timeless materials encourages the tradition of continued partnerships in other projects. This makes it possible to further extend the beauty of engineered stone and proudly present it in popular markets of the world.
